Monthly Basic Fixed Charge		
Meter Size	Current	Effective 01/01/15
5/8-inch	\$ 19.55	\$ 21.10
¾-inch	19.55	21.10
1-inch	32.60	35.20
1 ½-inch	64.95	70.15
2-inch	103.80	112.10
3-inch	194.55	210.10
4-inch	324.00	349.90
6-inch	647.90	699.75
8-inch	1,036.55	1,119.50

Notes:

- Total rate includes the sum of Table A-1 (as applicable) and Table A-2 below.
- These rates apply to all customers except: A) those described in Section 4.1.2 (Wholesale or Special Contract Customers) of the main document; and B) those described in Tables A-3, A-4, and A-5.

Table A-2		
Consumption Charges		
	Current	Effective 01/01/15
Single Family & Duplex with Individual Meters		
0-3 ccf	\$2.16	\$2.33 per ccf
4-100 ccf	3.39	3.66 per ccf
101-Excess	1.98	2.14 per ccf
All Others: Except those described in Tables A-3 and A-5		
0-3 ccf	\$3.39	\$3.66 per ccf
4-100 ccf	3.39	3.66 per ccf
101-Excess	1.98	2.14 per ccf
All Others: Except those described in Tables A-3	\$1.25 per month Infrastructure Improvement	

Notes:

- The District bills in hundred cubic feet increments (ccf). One hundred cubic feet (1 ccf) equals 748 gallons.
- Total rate includes the sum of Table A-1 (as applicable) and Table A-2.
- These rates apply to all customers except: A) those described in Section 4.1.2 (Wholesale or Special Contract Customers) of the main document; and B) those described in Tables A-3 and A-5.
- Infrastructure Improvement charge effective beginning 01/01/13.

Satellite Systems	General Plant portion of System Development Fee structure*		

Notes:

*Refer to Section 4.2 for further System Development Fee and Water Contract information.

*System Development Fees developed specifically for future LUDs or satellite systems, such as Potlatch Beach LUD No. 23, Skagit View Village LUD No. 27 and Marblemount LUD No. 28, that are not anticipated to connect to the Judy Reservoir System or conveyed water via the District's Water Supply Agreement with the City of Anacortes, shall be subject to only the "General Plant" portion of the System Development Fee structures, providing required criteria has been met for obtaining water service. The General Plant portion charged shall account for annual construction cost index increases and shall be multiplied by the appropriate weighting factor for the meter selected.

*Fees are based upon the cost of a 5/8-inch meter (\$4,305 (**\$4,415 effective 02/15/15**) x meter capacity weighting factor). The weighting factor is based upon the safe maximum operating capacity for displacement and compound water meters as identified in the American Water Works Association C-700 and C-702 standards.

The District shall adjust the System Development Fees on January 1 each year based on increases in the Engineering News Record Construction Cost Index for the Seattle area from November of the preceding year. The fee adjustment in the 5/8-inch meter size is to be based on the change in the construction cost index for the preceding 12 months, using the previous November as a baseline. The fee shall be rounded to the nearest \$5.00 increment. Fees for other meter sizes are incrementally determined using a multiplier upon the 5/8-inch rounded meter fee.

18	Satellite System Water Quality Testing Charge	Actual Cost

Note:

- The General Manager or Customer Service Department employees are authorized, at their discretion, to reverse or reduce specific charges on an account, provided that the account has had no charge reversals or reductions, late payments or finance fee charges within the previous twelve (12) months.

Table A-10
Service Deposits

Meter Size	Deposit Amount
5/8” or 3/4” Residential	\$135.00
1” Residential	\$200.00
Greater than 1” Residential	\$250.00

Note:

- Commercial and larger metered service deposits are to be calculated based on two times the two month average billing as determined from time to time when water rates are adjusted or increased or when customer applies for service. In unusual or exceptional cases where management deems it necessary in order to adequately protect the District, the District may exceed the amounts indicated.
